

Comeau Aerospace Inc.
Ultimate Flying Machine - Design Engineering Projects

CAI-210 - Executive

- double cranked delta high wing aircraft* (see *CD-notes) - chevron "A" or "Λ" design;
- Excellent low and high speed flight characteristics.
- The ultimate in safety and flight control, highly maneuverable.
- Electric, hydraulic & manual controls and retractable landing gear.
- State of the art aircraft for engineered strength, light weight & aero design.
- A very smooth quiet ride with little turbulent effects.
- A pressurized cabin for long range continent adventure.
- Great weight/fuel saving, enhanced performance, value and style.
- High lift aerodynamic design enables greater useful load with performance to spare.
- Advanced materials and manufacturing.
- twin NTPI-R-600 liquid cooled 600 hp V8, variable speed super chargers*
- Super Atomized Fuel Systems Inc. & NTPI fuel igniters - extreme performance & efficiency.
- Options: In-flight adj. multi-blade contra-rotating composite super-props.
- Engine Options: NTPI-R1200 liquid cooled 1200 hp V12, variable speed super chargers.
- Engine Options: turbojet under review, extended range, faster speed, climb and altitude
- * smile - it's good for your heart...plus something really cool is on the way...

CAI 210 Executive

- Range: 2,000 nm ● climb: 3,000-6,000 fpm;
- empty weight: 11,000 lbs ● load: 3,500 lbs ● fuel : 3,500 lbs ● max takeoff : 18,000 lbs
- cruise speed 300 kts ● max speed: 400 kts
- length: 57', wingspan: 40'
- 12-16 passenger ● service ceiling 20,000'

Jetstream Vision

- *Price:* est. \$6.5 million each
- *Market Vision:* start -10+, 20+ in 5 years, 40+ in 5 – 10 years
- *Service & Maintenance Vision:* service life hours and maintenance to be determined
- *Initial Production Vision:* 5 aircraft to start program
- *Colour Vision:* jet black, sky blue, custom, polished aluminum & military
- *Job Creation Vision:* 400 long term jobs, high value added, premium compensation.
- *Investment & Acquisition Vision:* high performance multi-engine non turbine aircraft with engine options, offers a major pilot, owner/operator market, with increased range, climb, speed and capacity to be maximized with this advanced design...
- *Pilot Vision:* let's fly!
